Dear Grandmother

We have found our land after some search. 136 Acres for 14,500\$. It has 1 cabin and a barn on it, and the land next door can be rented for 160\$/year - it has quite a lot of buildings.

There is about 6 ft of snow in the winter but the plough goes right up to our property.

What I think we should do to earn the money is Arts and Crafts. Rosa is painting fantastic pictures - Craig (Mari's boyfriend) does carpentry, and I can do just about anything. I was thinking that especially at Christmas we would have a pretty good market. Everybody else is really pessimistic and saying things like we can't live on it for 2 years. What do you think of my idea?

We are still at the Hunts. Give my love to Nell and Dora

Love

Gaitane -
