Mrs. Hunt Surrey B.C.

dear gäetan's grandmère
" is not a very good letter -
answer so i have decided to answer
your questions, being her very closest friend
and living with her here in our beautiful
commune by the lake up in the wild woods
of B.C. - the man she married is a wonderful
fine man, he has some business in Vancouver
and is coming up to join us soon - he
has 2 years university - tho it means nothing
as this is the dawning of the age of aquarius
and we have (everybody, especially youths) realized
that mankind's salvation lies in kicking over
the traces, getting out of the unreal cruel
walls of ~~all~~ modern cities and conventions, and
getting back to the land and nature's ways, as
we are meant to live - wild and free - in
other words - turn on - tune in - drop out -

because the world is round it turns me on
because the wind is high it blows my mind
because the sky is blue it ~~trucks~~ makes me cry

so we are trying to live together off the land
as much as we can - we are moving and
building a log cabin and getting goats and
chickens and peacocks and we have horses and
dogs and cats and babies and we are very

please rite again if theres anything
else you want to know or ill
try not to lose it this time
- gäctane sends her love
xxx

happy or striving to be - at least gäctane and
peter and i are very happy with what we
are doing - we have used sum of the money
you sent for oil paints and canvas and are
getting into painting in a beautiful way
gäctane and i paint well together - we will
send you sum pictures if you think you
mite like ~~on~~ them - but - more about
Peter you mite like to hear - i lost yr
letter so i cant remember really what you
want to know - but im making sum bread
and roland is playing his guitar and singing
and gäctane is falling asleep in the corner
by the wood stove and all the rest are asleep
and its 3 in the morning and were all ok. and
fine - we arent perfect by a long shot but
were getting there and we can see the
road clear ahead of us and also your
road and everybodys and i hope yr happy
if you arent why dont you cum and live
with us or visit anyway - it would be
very good - anyway peter doesnt need
a job as we are living off the land as
in days gone by - and marriages are
rather harried in this day (im not
being here yet not all) but it was
love almost at 1st site and say - yours truly
ROSIE

(she really does love you (and everyone) she probably loves you more
than anyone else you know) i think were going to France soon)
